A ROSE IS A ROSE

By *Roberta Naas*

Rose gold jewelry is hot. This warm, alluring metal is a tone that makes everyone feel rich and beautiful, especially when used in some of the most scintillating jewelry designs on the market. Indeed, more and more, jewelry designers are utilizing all hues of pink or rose gold for their collections. Just how rich or deep the rose gold coloration is depends upon how much copper is put into the mix. But rest assured the end result is precious.
