**Claudia Endler** uses the power of proportion, attention to detail, and the omission of the non-essential elements to bring each piece to its minimum and purest form. Claudia Endler is passionate about jewelry, art, architecture, design, and self-expression. By combining elements from graphic design, art, and architecture, the essence of Claudia's jewelry designs is to illuminate the unique qualities that define each person individually.

I've always considered myself a vintage type gal, but recently came across Claudia Endler Designs, and I've broadened my scope of thinking. **Claudia Endler Designs** are beautiful and different. She has beautiful bridal collection that is new and fresh. You won't be wearing the same ring everyone else is. My husband designed my ring and I love the fact that it isn't like everyone else.

Claudia Endler Designs has a super collection of jewelry that is under \$175. Looking through this area I'm finding these items less expensive but with quality you won't get in a department store. Moving on to the Couture collection I'm just in awe. The rings are not classics they are new and different and the stones are set in a new and unique way while making the piece sturdy for every day use.

I received these earrings here on the left. These Round Bead Triangle earrings are beautiful. They hang at just the right length and are perfect for casual or dressy wear. Now the pair on the right called Tear Drop on Lever Back Earrings are for one lucky Networking Witches Reader!

Lastly, I really like the fact that **Claudia Endler Designs** supports charity. The one closest to my heart, breast cancer. Claudia supports the **Young Survival Coalition (YSC)** is the only international, non-profit network of breast cancer survivors and supporters dedicated to the concerns and issues that are unique to young women and breast cancer. 50% of the proceeds from Claudia Endler Designs from the Long Bar Pendant in the Centerpoint Collection go to the Young Survival Coalition.
